The Lucky Wheel at Diamond Casino & Resort is a form of gambling that was introduced in Grand Theft Auto Online with the update on July 23, 2019. It can be found within the main lobby of The Diamond Casino & Resort. To participate, players must first purchase a one-time standard membership for $500, after which they are allowed to spin the wheel once per real-life day. Upon spinning the wheel, players can win various prizes. Unlike other casino games, each prize has an equal 5% chance of being won, with 20 possible outcomes on the wheel. Prizes include RP (with a 25% chance), ranging from $2,500 to $15,000, as well as cash, chips, and clothing items, all with a 20% chance of winning. The clothing category offers four chances at winning a random item or outfit, including some pieces that players may already own. Players can win items they already have in their collection but cannot receive the same item twice unless they've already won every item once. Winners will directly receive the prize money or item and not have it deposited into the bank. A collection of clothing items, categorized by type and color.
